10 June 2020

COVID-19 Safety Plan

Effective 13 June

Swimming pools (including spa pools, saunas and steam rooms)

We've developed this COVID-19 Safety Plan to help you create and maintain a safe environment for you, your workers and your visitors.

Complete this plan in consultation with your workers, then share it with them. This will help slow the spread of COVID-19 and reassure your visitors that they can safely visit your business. You may need to update the plan in the future, as restrictions and advice changes.

Businesses must follow the current COVID-19 Public Health Orders, and also manage risks to staff and other people in accordance with Work Health and Safety laws. For more information and specific advice for your industry go to nsw.gov.au

> REQUIREMENTS FOR BUSINESS

Requirements for your workplace and the actions you will put in place to keep your visitors and workers safe

REQUIREMENTS	ACTIONS
Wellbeing of staff and visitors	
Exclude staff, volunteers and visitors who are unwell.	
Provide staff and volunteers with information and training on COVID-19, including when to get tested, physical distancing and cleaning, and how to manage a sick visitor.	
Make staff aware of their leave entitlements if they are sick or required to self-isolate.	
Display conditions of entry (website, social media, venue entry). Consider displaying the maximum number of people allowed in each room/space, shown at a clear place of entry.	

Wellbeing of staff and visitors

Ensure COVID-19 Safety Plans are in place, where relevant, for:

- Gyms
- Restaurants and Cafes

REQUIREMENTS

ACTIONS

Physical distancing

Ensure the number of people in a facility does not exceed one person per 4 square metres (including staff).

Ensure classes have no more than 10 participants, plus the instructor and any assistants, per space and comply with one person per 4 square metres.

Ensure activities are non-contact as much as practical. Accidental contact may occur but no deliberate body contact drills.

Implement measures to prevent crowding, such as limiting the number of swimmers to 3 per lane and ensuring physical distancing for adult swim classes (which can have up to 10 participants).

For children's swim classes, take reasonable steps to ensure parents supervising or supporting children are physically distancing.

Ensure any spectators comply with 1.5 metres physical distance where practical, such as through staggered seating. People who live in the same household are not required to distance.

Saunas and spa pools should have no more than 10 people inside at any one time or one person per 4 square metres, whichever is the lesser. If capacity cannot be closely monitored then these facilities should remain closed.

Steam rooms are higher risk and should have no more than 10 people inside at any one time or one person per 4 square metres, whichever is the lesser. Clean steam rooms with a detergent and disinfectant several times per day, should the facility choose to open them for use.

Assess the safe capacity of communal facilities such as showers, change rooms and lockers. Communicate this at their entrance and have strategies in place to reduce crowding and promote physical distancing.

Where practical, stagger the use of communal facilities. Strongly encourage visitors to shower/change at home where possible.

Physical distancing
Reduce crowding wherever possible and promote physical distancing with markers on the floor, including where people are asked to queue.
Have strategies in place to manage gatherings that may occur immediately outside the premises.
Use telephone or video platforms for essential staff meetings where practical.
Review regular business deliveries and request contactless delivery and invoicing where practical.

REQUIREMENTS	ACTIONS
Hygiene and cleaning	
Adopt good hand hygiene practices.	
Ensure hand sanitiser is accessible at the venue entry and throughout the facility or ground.	
Ensure bathrooms are well stocked with hand soap and paper towels.	
Provide visual aids above hand wash basins to support effective hand washing.	
Clean frequently used indoor hard surface areas, including children's play areas, at least daily; first with detergent and water, and then disinfect. Clean frequently touched areas and surfaces, including in communal facilities, several times per day.	
Clean steam rooms with a detergent and disinfectant several times per day, should the facility choose to open them for use.	
Reduce sharing of any equipment where practical and ensure these are cleaned with detergent and disinfectant between use.	

Hygiene and cleaning

Maintain proper disinfectant levels and pH of pools and spas.

Disinfectant solutions need to be maintained at an appropriate strength and used in accordance with the manufacturers' instructions.

Staff are to wear gloves when cleaning and wash hands thoroughly before and after with soap and water.

Encourage contactless payment options.

REQUIREMENTS

ACTIONS

Record keeping

Keep a record of name and a mobile number or email address for all staff, volunteers, visitors and contractors for a period of at least 28 days. Ensure records are used only for the purposes of tracing COVID-19 infections and are stored confidentially and securely.

Make your staff and visitors aware of the COVIDSafe app and its benefits to support contact tracing if required.

Cooperate with NSW Health if contacted in relation to a positive case of COVID-19 at your workplace, and notify SafeWork NSW on 13 10 50.
